

May 24, 2007

Greetings from the ACMNP National Office in Freeport, Maine!

We are taking positive strides into our 56<sup>th</sup> season of ministry in the National Parks. Our outstanding Ministry Staff will soon be inviting thousands of people each Sunday to worship the Creator in the midst of God's natural cathedrals in National Parks from Alaska to the Virgin Islands.

George Washington Carver once said, "Nature is an unlimited broadcasting station, through which God speaks to us every hour, if only we will tune in."

This ministry recognizes that God created the natural world, and that something oftentimes gets lost in the way humans tune into it. Ever since the inception of ACMNP in the early 1950s, we have invited people to expand their understanding of both Nature and the ways of the Creator. Our Ministry Staff has a passion to provide a Christian interpretation to this wild side of creation.

ACMNP desires a partnership with you as we focus on our financial goals of 2007, which includes the recruiting, training, and the building of a support structure for our Staff who serve in the Parks. If you are already a partner in this ministry, your continued financial support reinforces our mission. Because you believe in our mission, please tell your friends and family about ACMNP and enlist other new donors, new Ministry Staff, and new worshippers in the National Parks!

Please pray for our 2007 Staff and plan your own summer vacation to include an ACMNP worship service. Make an offering as a response to God for his incredible beauty and generous provision in Jesus Christ.

Gratefully,

Dick Camp  
ACMNP Executive Director
